

## **Statement of Transparency**

Education Cannot Wait (ECW) is committed to attaining the highest standards of conduct and transparency in the operations, management and administration of its activities. We believe that open communication best serves the interest of all ECW stakeholders, starting with the children and families that we serve and including all our supporters and donors. This is why transparency and accountability are an integrated part of ECW's core values, governance manual and operating model.

In that spirit, ECW will regularly post on its website all relevant documents related to meetings involving ECW's governance bodies (e.g. Secretariat, High Level Steering Group, Executive Committee, Task Teams), such as agendas, minutes and background papers. In 2018, ECW will also develop and integrate a financial tracker on its website that will provide updated details about donors' contributions to ECW's pooled funds and funds disbursed to selected operations.

Additional information related to ECW's country programmes, finances and advocacy efforts will be shared with the public on ECW's website. General questions about ECW can be addressed to [info@educationcannotwait.org](mailto:info@educationcannotwait.org).
